

BC STUDENT OUTCOMES

An introduction to
B.C.'s post-secondary
student surveys

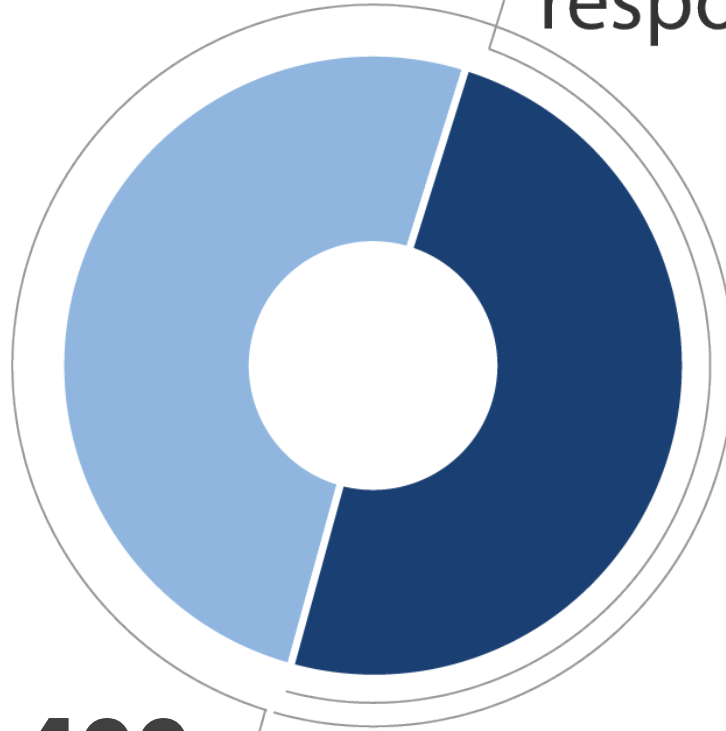

**The BC Student Outcomes surveys
provide feedback and information that
help maintain a high-quality, relevant
education system.**

BC Student Outcomes Annual Surveys

Each year thousands of students complete programs of study at British Columbia's post-secondary institutions.

58,400
post-secondary
students

29,000
respondents

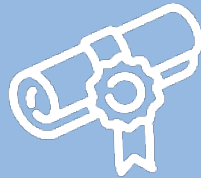

Who is surveyed?

Past students from...

Baccalaureate
programs

Diploma,
Associate Degree,
& Certificate
programs

Trades Foundation
& Trades-Related
Vocational
programs

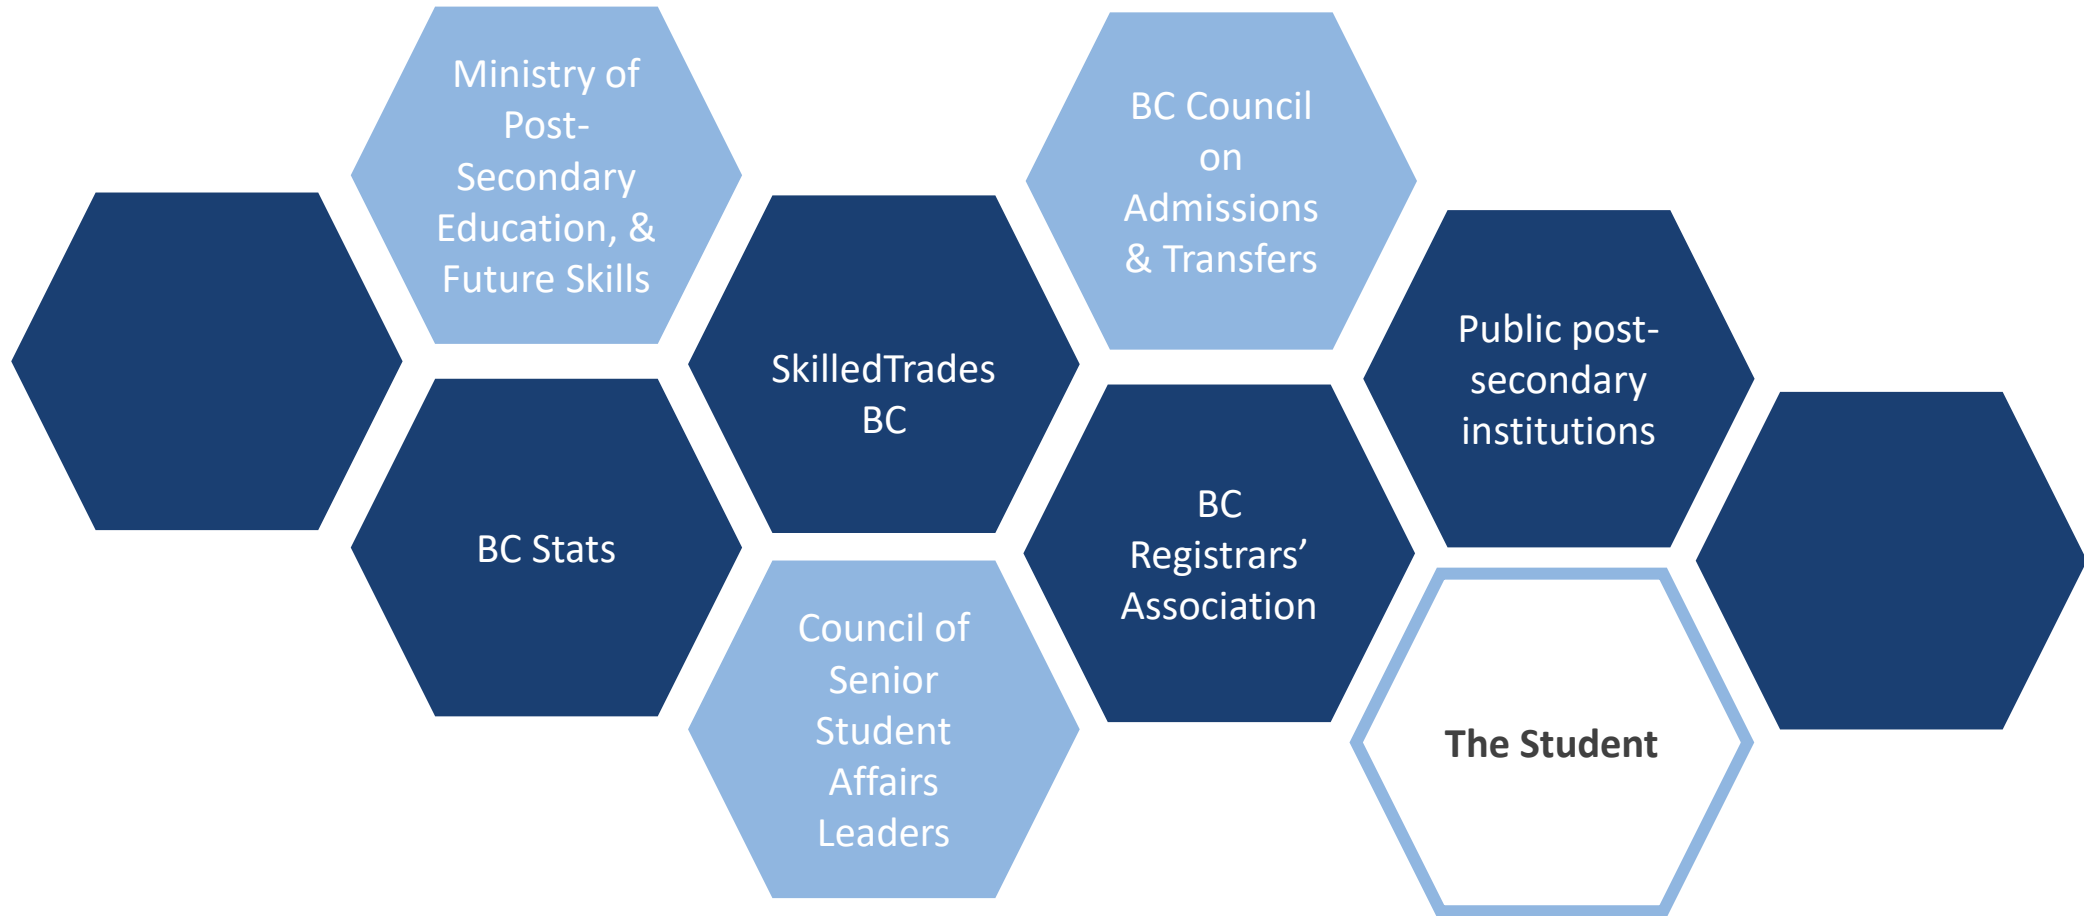

Apprenticeship
programs

Former students were asked about...

Partnerships and collaborations

Contributions

- Ministry of Post-Secondary Education & Future Skills
- Post-secondary institutions
- SkilledTradesBC (formerly Industry Training Authority)
- BC Council on Admissions and Transfer

How does government use the results?

- Accountability Framework
- Ministry Service Plan
- Policy development
- Labour supply model
- System-level reporting

How do institutions use the results?

- Assessment & improvement
- Program review
- Faculty development
- Program selection
- Career planning
- Student advising
- Marketing programs

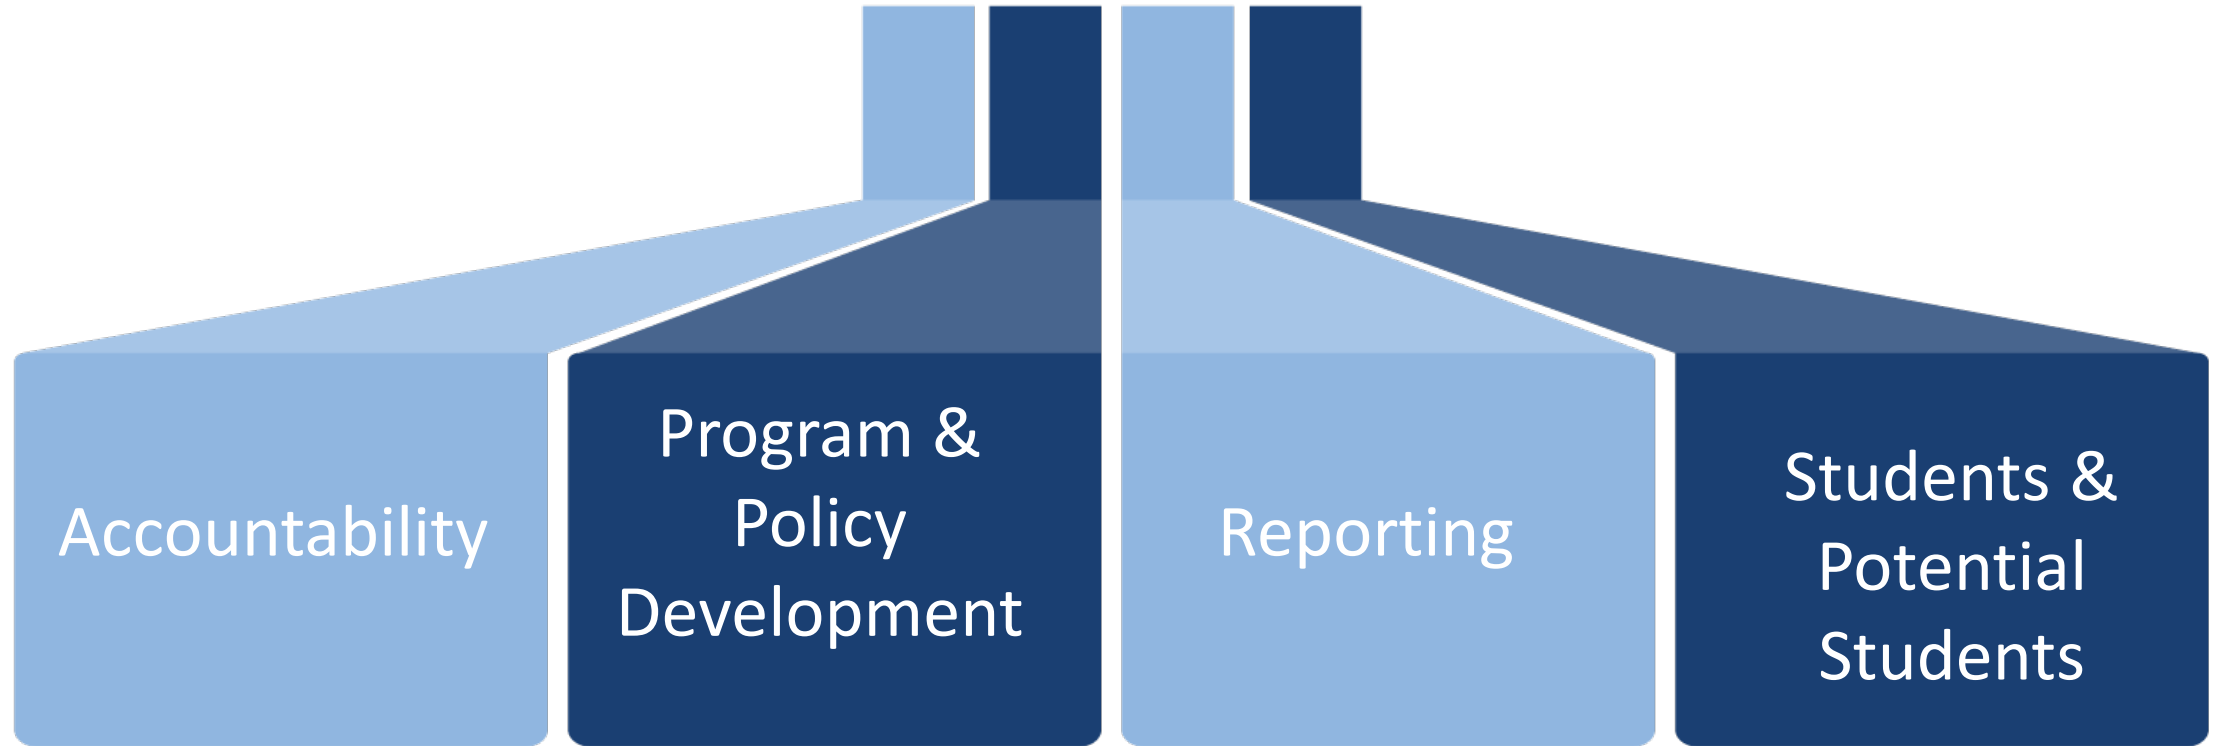

How can the public use the results?

- To learn what past students thought about their program
- To figure out what program to choose
- To plan their career
- To get first-hand opinions
- To see the employment outcomes of previous students

Outcomes Components and Uses
